SCHOELLER PLAST

BOTTLE TRAYS FOR BEVERAGE

Categories: Beer and Beverages

PRODUCT DESCRIPTION

Bottle trays for safe transport and stacking of beer and soft drink bottles are produced as standard goods in the ¼ pallet size 600 x 400 mm and ½ pallet size 600 x 800 mm. They are suited for beer, water, glass and PET bottles in the sizes 0.33 litre, 0.5 litre, 1.5 litre, and 2 litres.

Besides trays for beer and soft drinks Schoeller Plast also develop solutions for several other purposes and types of bottles. They can be produced in any kind of colour and size – with and without silk printing or IML (In Mould Labelling) for branding of messages and logos.

Besides bottle trays we also produce 6 bottle carriers for drinking bottles, energy drinks and bigger bottles. The easy and handy bottle carrier has room for 6 bottles and is produced in impact-proofed and strong material. With an individual silk print the bottle carrier is suitable for everything from fitness and football to a campaign unit, containing bottles with for instance polishing equipment to the car or the like.

Bottle carriers are also produced with an individual look according to the customer's own specifications.

Please send us your inquiry for various models: spe@schoeller-plast.dk.
