

IBC CONTAINERS/PALLET CONTAINERS & BIG-BOXES

| **Category:** [Measuring jug/Measuring spoon](#)

PRODUCT DESCRIPTION

IBC containers and Big-Boxes from Schoeller Plast are foldable, hygienic and with Bag-in-Box.

Big-Boxes

Big-Boxes are perfect for industrial processes, storing and distribution and are suitable for automated processes. Big-Boxes have rounded edges and corners, and therefore they are easy to maintain and clean and at the same time this gives maximum protection of the goods. The Big-Boxes come in many sizes (1200×800, 1200×1000 and 1200×1200 mm) and in various designs – closed, perforated, with 4 feet and 2 or 3 sidepieces.

IBC containers / IBC Combo

IBC container/IBC Combo consists of 2 foldable pallet containers for storage and transport of liquids and chemicals within for instance the food industry and non-food products. The small Combo 65 has a volume of 250 l, and the big Combo 285 has a volume of 1000 l. They are both designed to meet very strict environmental and transport rules for the handling of fluids.
